

# KWIK LOK CLOSURES USED WITH THE 814 DISPENSER

## Series AD

**Series AD closures** are designed to be used with Kwik Lok's 814 Dispenser. The closures are packaged on steel rods for mounting in the dispenser. The closures are manufactured with lok openings at each end of the closure. This design allows the packager to use one closure for a wider range of bag sizes.

Series AD (medium duty) are manufactured to order and are available in seven plastic colors and three dual lok opening configurations.

**MEDIUM DUTY CLOSURES  
UP TO 5 LBS  
CONTENT WEIGHT**
