 24 Lbs (11 Kg); 4.2 cu. ft. (0.12 cu. m.)

ORDERING INFORMATION

Order by type and model number (i.e. Type 083B Model CR)

TYPE	MODEL	LABEL	PLASTIC THICKNESS	SPEED (Bags/Min)
083B	CR	Series CR	Medium & Heavy Duty	30
083B	CRP*	Series CR	Medium & Heavy Duty	30
083B	U	Series U	Medium & Heavy Duty	30
083B	UP*	Series U	Medium & Heavy Duty	30

*Model is equipped with Trodat Printer.

The 083B Semiautomatic Bag Closing Machine will close your bags with either the Series CR or Series U Closure-Labels.

The labels can be printed to your design specification in any number of colors on either side of the label. Standard label material is C1S Tagboard, a synthetic material, and some plants can also provide C2S Tagboard.

The 083B is simple to operate; even inexperienced operators can quickly achieve speeds up to 30 bags per minute. The machine has few moving parts, is portable and requires no electricity.

The 083B can be used with a Trodat® 5431 Printer, allowing the labels to be printed with sell by, best by, or use by dates.

The Trodat is a band type printer and will print with either Red, Black or Blue ink.

The printer will print on the front of the label. In order to provide good ink absorption, the label front will be the uncoated side of the tagboard.
