

TYPE 1002EP SEMIAUTOMATIC BAG CLOSING MACHINE

The 1002EP features a printer for printing price, date and/or code information on either the Series "RL" or Series "SL" Striplok® Closures. The closures are manufactured with a small paper label affixed to the closure. The 1002EP can also close packages with the Series "R" or "S" closures; however, these closures **cannot** be printed.

The 1002EP is so simple to operate, that even inexperienced operators can close up to 30 bags per minute. The Kwik Lok® is applied by inserting the bag into the machine. Removing the bag automatically positions the next closure for another package.

The 1002EP can be portable, or permanently mounted. Suction-cup feet allow the portable unit to be used on any flat, clean surface. Bolt holes are pre-drilled for permanent mounting (bolts are not included). A kit is also available for mounting the machine on an Oliver Slicer.

SPECIFICATIONS

HEIGHT: 16" (40.6 cm)
 WIDTH: 8" (20.3 cm)
 LENGTH: 23.75" (60.3 cm)
 APPROXIMATE SHIPPING WEIGHT & DIMENSIONS
 19.5" x 29.5" x 12.5"; 33 Lbs; 4.2 Cu Ft.
 50 cm x 75 cm x 32 cm; 15 Kg, 0.12 cu m

ORDERING INFORMATION

Order by Type and Model number (i.e. Type 1002EP Model BRL).

Specify your single phase electrical requirements. Kwik Lok will supply the proper gear motor with your order for the country in which your closing machine will be used.

THE FOLLOWING GEAR MOTORS ARE AVAILABLE:

Fixed Speed, Impedance Protected Gear motor:

115 VAC — 60 Hz — 1 Ph (U.S., Canada)

Fixed Speed, Impedance Protected Gear motor:

240 VAC — 50 HZ — 1 Ph (Europe, U. K., Australia)
