

TYPE 897A PRINTER: AUTOMATIC

The 897A is a fully air-operated cold transfer printer, ideally suited for printing multi-line information on most Kwik Lok® closures used with Type 872 and Type 873 Bag Closing Machines.

Type can consist of prices, dates, codes, logos, lot numbers, and a wide variety of other printed information that may be required on your package.

The printer operates at a fixed speed, imprinting up to 110 closures per minute. The speed of the printer is dependent on the speed of the bag closing machine.

EASY OPERATION

All of the controls are conveniently located on one panel. There are just three items controlled by the machine operator, which are:

- On/Off Switch
- Printing Foil Advance Knob
- Print Pressure Knob

There is clear access for type changeover and printing foil replacement complete with an operator safety door.
